### **Disability and New Media - Taylor & Francis**

The social construction of disability is the idea that society and its institutions have the power to construct disability around social expectations of health. This idea argues that disability is construction based on several localized social expectations. For example, in the medieval period disability was constructed around a person's moral behavior.

### **Social construction of disability - Wikipedia**

He is co-author, with Katie Ellis, of *Disability and New Media* (Routledge, 2011), and co-editor (with Tama Leaver) of *An Education in Facebook? Higher Education and the World's Largest Social Network* (Routledge, 2014). His current research includes the forthcoming books *Massive Open Online Courses and Higher Education: Where to Next?*
